Athletic Objective

Repeatedly reach the podium competing in the Freeskiing World Tour on Alpine equipment as I did in previous years on Telemark gear. Work to establish the sport of Telemark Skiing within the big mountain riding community, as well as increase the visibility and understanding of the sport among the general public. I aspire to compete in the IFSA Alpine Competition Series and have an increased presence in both print media and film.

Athlete Statement

My Goal as an athlete is to progress the sport of Telemark Skiing into the mainstream. In the past few years I have worked hard to further my skiing through competitions, film and photography. Working with top companies from both the telemark and alpine skiing worlds I have worked to bring recognition to the sport of Telemark Skiing. I plan to continue to promote the sport of snow riding and the safe use of the backcountry. In the future I would like to start a progressive telemark skiing camp.

Competitive Experience

2009
